U.S. EXPORTS OF BREEDING SWINE IN CALENDAR 1973

U.S. exports of breeding swine in 1973, according to official USDA veterinary export certificates, totaled 6,306 head, 41 percent below the 10,754 head exported in calendar 1972, making 1973 the third consecutive year exports of breeding swine have declined. The decline is generally attributed to strong domestic demand and higher domestic prices. The decrease in exports primarily resulted from smaller shipments to Canada, Venezuela, the Dominican Republic, the Bahamas, and Mexico.

Mexico ranked first in importance as an export market in 1973, taking 1,912 head, followed by Japan, with 1,440 head; Venezuela, 690 head; Canada 565 head; and Colombia, 299 head.

Duroc swine placed first in importance in 1973 as an export breed with 2,139 head, followed by Yorkshire, 1,883 head; crossbreeds, 1,151 head; and Chester White, 345 head.

Breeding swine in 1973 were exported from 30 States to 42 foreign countries. Texas was the leading export State with 1,371 head, followed by Illinois, 1,309; Iowa 1,084; and Missouri, 619 head.
